# Sirenlock™ Door Alarms

by Alarm Lock

## FEATURES OF ENHANCED DOOR ALARM PG21E

- Sleek model design key-activated door alarm for use on standard size and narrow stile doors
- Unauthorized use of door activates alarm and LED indicator
- Allows any or all of the following:
  - Continuous power with the addition of an external power supply
  - Multiple door monitoring with built-in external reed switches
  - Form C Relay output for remote monitoring and connection to fire/burglar alarm panel
- Continuous alarm, 2-minute shutdown with auto reset and exit/entry delay
- Uses standard mortise cylinder (not supplied)
- Convenient Plug-in "No Cut" Jumpers
- Improved 95dB "Sweeping" Siren
- Visual Magnet Alignment Mode eliminates the need for templates
- Tamper switch supervised
- For exterior key control, optional Rim cylinder may be used
- Finish: metallic silver

**Standard PG21 Model (as above, with multiple door monitoring or Form C Relay) also available**

## FEATURES OF KEYPAD-CONTROLLED DOOR ALARM PG30

- Top-of-the-line keypad controlled narrow stile door alarm *with the features of the PG21E plus:*
  - Digital codes for Master, Management and Passage (used for Auto-Arming)
  - 3 security levels for: High security; Unattended applications; Flexible control for delivery doors, etc.
  - Audible low battery warning
  - 3 Programmable 95db siren styles: sweep, pulsed and steady
  - Logo key is dual function test button
